Post office- muttar, Police Station- ramankeri, District - Alappuzha kerala – 689574 INDIA

OBJECTIVE

Seeking a challenging position in a progressive organization that allows career development and provides challenging work environment. To constantly learn and utilize my skills and abilities to add value to the organization and apply the knowledge thus acquired with an eye on quality.

PERSONAL DETAILS

Date of Birth : 01-05-1986
Marital Status : Married
Nationality : INDIAN
Religion : Hindu
Passport : S8990009
Gender : MALE
Driving Licence : 213034 [AL
FUJAIRAH]

SKILLS

A seasoned professional with 18 years Experience with Best Drilling Rigs by OEM like Sandvik, Atlas Copco (Now Known as Epiroc) Expert in Operations and Complete Maintenance of Sandvik 923i, 1132i, DD 320, DD 310, DT-820, 810, 1131, 1231, 920 and Epiroc XE3C, XL3C, E2C, S1D, 352, L2D, L2C models. Thorough Knowledge of various Rock Support System in Poor rock conditions like Rib, Lattice Girder, Wire mesh Fixing (Class 4 & 5) and in Good Rock conditions like Rock bolting, Shotcrete (Class 1,2&3). Fair knowledge of Procedures followed during Cavity treatment and to control over breaks as per site conditions. Experience in Irrigation, Road, Railway, Underground Power Project, Metro & Cavern Project. In Depth Knowledge of MWD Software used by SANDVIK like TCAD, ISure used for Long Drilling Probe Hole analysis and equipment navigation for Drilling Patterns. Expertise in all types of Pipe roofing used in Tunneling with Diameter starting from 40 mm to 139.7 mm. Installed various types of Rock bolts used like SDA, Swellex, SN, Glass Fibre, Resin grouted with various Diameter. Know-how of various Drilling Patterns used including Wedge Cut and Burn Cut. Developing strong and motivated work force by proper training of team about work and safety. Awarded as Best Operator for maximum Productivity in Drilling, Rock bolting, Pipe roofing Operations along with Proper machine maintenance and utilization.

Pumped storage hydro power plant project hatta Dubai UAE

Pumped storage hydro power plant project hatta Dubai UAE

Employer : Dubai electricity and water authority Dewa. Engineer

/ consultant EDF Contractor : Consortium

(strabag,ozkar,andritz) Project Details :Both reservoirs will be connected by 1.2km long pressure tunnel , Two road tunnels with a length of 470mtr and 440 mtr NATM. Job Resposibilites • Developing strong and motivated work force by proper training ofteam about work and safety . • Execution and supervision of construction of tunnels by NATM Technic sequential excavation and support. • Knowledge of various rock supports system in poor rock conditions like rib,lattice girder wire mesh fixing rock bolting shotcrete,pipeproofing ,grouting ,spilling bolt ,rock bolt. • Knowledge of veries drilling pattern wedge cut,fan cut,burn cut.

AL Mandous Project (World's Largest Underground Oil Storage Cavern)

Client – ADNOC • Consultant – GEOSTOCK • Position – Jumbodrigill Operator • Contractor- SKEC • Project Details – Underground Oil Storage Cavern Consisting 12 Caverns of

1.4Km each with dimension of 25m*20m. Job Resposibilites • Achieving Contruaction Activities like excavation, foundation,PCC,waterproofing,RCC,and shuttering,steelfixing,casting concrete,masonry for brick works and plastering tile fixing etc.up to completion.independently following with design engineers of architecture,and structural updated drawing.

NEOM Spine Tunnel Project

NEOM is building a high-speed passenger line and a heavy freight line along NEOM's transportation corridor, called the Spine (Spine High Speed and Heavy Freight rail system). Between Ch:105 + 440 and Ch:136 + 276, the line will run through 2 twin tunnels, called Running tunnel (Mountain Section), one for the transport of passengers and the other for the transport of heavy goods. The site of the works is in a remote mountainous region at the eastern end of Wadi Sharma, approximately 32 km from Highway 8784 (the Tabuk to Sharma Highway) and extends 2 km east of Highway 80 (the Tabuk Highway to Duba). The Works consist of the excavation of the tunnel and the construction of the permanent concrete lining works (Main Structure) for the 31km (approximate) length of the 2 tunnels that make up the Running Tunnel. The scope of the works includes the excavation of some 11,000,000 m3 in rock. The Contractor shall demonstrate its commitment to use the most up-to-date tunnel drilling and blasting methodologies and equipment.
